Progress

## How Will We Improve Mobility Along I-35?

**WELCOME**

The Lone Star Regional Rail Project is proposed to improve mobility, modal choice, accessibility, transportation reliability and facilitate continued economic development along the I-35 corridor in Central and South Texas.

We invite you to use this tool to provide your input into the project. We appreciate your time!

Español [Click here to begin](#)

**ISSUES** **MAP INPUT** **SURVEY** **STAY INVOLVED**

As proposed, the Lone Star Regional Rail Project would provide regional passenger rail service, following existing freight rail corridors, connecting communities from north of Austin to San Antonio.

## 2 What are your top concerns?

**WELCOME**

**ISSUES**

Order your top 5 issues above this line

- Lack of access to other modes
- Cultural and Natural Resources
- Air quality
- Traffic congestion and growth
- Travel safety
- Access to jobs and education

Tell us which of these issues are of greatest concern to you within the I-35 corridor between Austin and San Antonio.

Click on each issue to learn more and provide a comment if you wish.

Drag your top issues above the line - at least four - to move the progress bar.

If there's an important issue we've missed, click "Suggest Another" and let us know.

Please tell us about your travel along I-35

Introduction

What options do you think should be studied to improve mobility between Austin and San Antonio? (check all that apply)

- Additional regional highways and/or toll roads
- Improve and/or develop other local roadways
- Develop commuter or regional rail with multiple stops between Austin and San Antonio
- High-speed rail with limited stops between Austin and San Antonio
- Regional bus or bus rapid transit service
- Air travel, with increased flight options between Austin and San Antonio
- Other

Travel Options

If a passenger train was available as an alternative to I-35 in the Austin-San Antonio corridor, that ran 7 days a week at various times throughout the day, how would you use it?
